

Is Your Organization Prepared for Disaster?

If your business was hit with a flood, would you be able to recover quickly? What about a ransomware attack - would your crucial systems stay operational?

Use the checklist below to find out if your business is ready to face (and survive) a major disaster.

DISASTER PREPAREDNESS CHECKLIST	YES	NO
Do you know what the financial cost of downtime is to your business?	<input type="checkbox"/>	<input type="checkbox"/>
Do you back up your crucial business data multiple times per day?	<input type="checkbox"/>	<input type="checkbox"/>
Do you have software and storage dedicated to backup up your business data?	<input type="checkbox"/>	<input type="checkbox"/>
Is your data backed up offsite?	<input type="checkbox"/>	<input type="checkbox"/>
Is your offsite data encrypted and secure?	<input type="checkbox"/>	<input type="checkbox"/>
Are your backup files tested and verified?	<input type="checkbox"/>	<input type="checkbox"/>
Do you periodically test your back up and data recovery solution?	<input type="checkbox"/>	<input type="checkbox"/>
Do you know how long it would take you to be up and running if you lost access to your business data?	<input type="checkbox"/>	<input type="checkbox"/>
Do you know how long your business can be down for and still survive?	<input type="checkbox"/>	<input type="checkbox"/>
Do you have a virtual solution to replicate your digital environment to get your business fully back online quickly in case of disaster?	<input type="checkbox"/>	<input type="checkbox"/>

If you answered **NO** to any of these questions, then it may be time to upgrade your Business Continuity & Disaster Recovery plan.
